Computer Modules for
Touchscreen Signage

**Integrates touch computing
& Digital Signage**

Commercial Grade

3-Year Warranty

Product Overview

The Elo Interactive Digital Signage (IDS) touch platform featuring the Intel® Core™ 4th Generation CPUs with enhanced graphic engines enables increased customer engagement and immersive brand experiences by adding an exciting new dimension to traditional broadcast digital signage - the power of touch.

Centralized management and security capabilities of Microsoft® Windows® ensures compatibility with many content management servers and web-based consoles for seamless connection with the internet, digital marketing, interactive whiteboard, building directory, virtual receptionist, and point-of-information (POI) applications. The ECM can also support optimal partitioning of locally cached and network stored content, allowing developers to monitor and deploy content via device-to-device or web connections.

**A fully self-contained computing
solution when coupled with
Elo IDS touch screens**

**Intel 4th Generation CPU Core i3,
i5, i7 with high-end graphics enable
media-rich interactive experiences**

**Quick-access hard drive for easy
initial imaging and field service**
